

# LOGO FILE TYPES TO ASK FOR FROM YOUR SPONSOR FOR TEAM BANNERS

**BEST - VECTOR FILES**

- .EPS**
- .AI**
- .CDR**
- .SVG**
- .PDF**

**These files are best to be put on the banner.**

## EXAMPLE:

*Logoname.eps*  
*Logoname.ai*

**OK - BIG RASTER FILES**

- .JPG**
- .PNG**
- .PSD**

These files are **OK** if the file size is at least **1MB or bigger**.  
**2MB** or bigger is even better.

## EXAMPLE:

*Logoname.png (File Size 3 MB)*  
*Logoname.jpg (File Size 3 MB)*

**WORST - SMALL RASTER FILES**

- .JPG**
- .PNG**
- .GIF**

Anything **smaller than 1MB** will **not work** and will need to be manipulated.

## EXAMPLE OF FILES TOO SMALL:

*Logoname.gif (File Size 30 KB)*  
*Logoname.jpg (File Size 50 KB)*

**Most companies should have the correct format – you just need to ask for it.**

Please keep in mind that converting files to the correct format will be at the expense of the team

**EFFORT | PASSION | COMMITMENT | INTEGRITY | EQUALITY**
